

Rubric for Food Diary

Component	Criteria	Marks
Student Information	Name, ID, Section, Age (all correct & complete)	1
	Height with correct unit	1
	Weight with correct unit	1
	BMI calculated correctly (formula shown)	1
Food Diary Completion (10 days)	10 complete days	2.5
	8–9 days	2
	6–7 days	1.5
	4–5 days	1
	1–3 days	0.5
	No diary	0
Pictures of Food Items (10 days)	Clear pictures of all meals for 10 days	6
	Missing 1–2 meals / some unclear pictures	4–5
	Pictures for 6–7 days	3–4
	Pictures for 3–5 days	1–2
	No pictures / very unclear	0
Macronutrient Calculations	Correct calories, carbs, protein, fats for all 10 days	10
	8–9 days correctly calculated	8–9
	6–7 days with some errors	6–7
	4–5 days incomplete / inaccurate	4–5
	1–3 days only	1–3
	No calculations	0
Creativity & Presentation	Very neat, organized, creative layout	1.5
	Neat but limited creativity	1
	Poor / messy presentation	0.5
	No effort	0
Reflection / End Comments	Insightful reflection on habits & improvements	1
	General / shallow reflection	0.5
	No reflection	0
TOTAL		25

Guidelines for Project

Deadline: 17-12-25- (Slot 5)

- Use a **10-day food diary**
- Start with a **cover/first page** containing:
 - Name
 - ID
 - Section
 - Age
 - Height (cm or ft/in clearly mentioned)
 - Weight (kg clearly mentioned)
 - BMI with formula: **BMI = weight (kg) ÷ height (m²)**
- **For each of the 10 days, include the following meals (minimum):**
 - Breakfast
 - Lunch
 - Dinner
 - Any snack/drink (if taken – even tea/coffee, juice, biscuits etc.)
- **For every meal you must write:**
 - Time of meal
 - Food name (be specific: e.g., “chicken biryani” not just “rice”)
 - Portion size (cups, pieces, spoons, grams, glass etc.)
 - Cooking method (fried, boiled, baked, grilled, shallow fry, deep fry, etc.)
- **Pictures of food (6 marks requirement):**
 - Take your **own pictures** – not from Google
 - Include at least **1 clear photo of each major meal per day**
 - Make sure the food is **clearly visible** and it's the portion that you are consuming not the whole table
 - Photos can be taken on phone
 - Arrange them neatly under each date
 - If outside food is eaten, still take picture before eating
- **Macronutrient calculations (10 marks):**
 - Calculate for each meal:
 - Calories (kcal)
 - Carbohydrates (g)
 - Protein (g)
 - Fats (g)
 - You may use:
 - Nutrition apps / websites
 - At the end of each day, write **TOTAL for that day**
- **Creativity & presentation (1.5 marks):**
 - Use colors/highlighters
 - Make neat tables

- Add borders/lines/separations
- Keep neat handwriting or clear typing
- Add a simple front cover with a title

• **Final reflection / end comments (1 mark)** – write 1 short paragraph:

- Mention what you **noticed about your eating habits**
- Identify:
 - Strengths (e.g. good protein intake, home-cooked meals, fruits/vegetables)
 - Weaknesses (e.g. too much junk food, skipping meals, low water intake)
- Write **2–3 realistic changes** you will try to make to improve your diet

• **Important rules:**

- Plagiarism (copying food diaries/pictures/calculations) = **0 marks**
- Incomplete days = **marks will be deducted**
- Missing pictures = **marks will be deducted**
- Unrealistic portion sizes or copied values = **marks will be deducted**
- Late submission = **penalty according to policy**
